The Fund determined that a portion of each component constitutes a non-taxable return of capital. See the attached schedule for dates and amounts of each distribution that included a return of capital.**

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ **Of the Fund's distribution declared and record on April 2, 2019, \$1.0433 of the total distribution or 10.1535% of each distribution type is a non-taxable return of capital. This amount is a non-taxable return of capital to the extent of a shareholder's tax basis in each of its Fund shares, with any remaining amount being taxed as capital gain to a shareholder. See the attached schedule for dates and amounts of each distribution that included a return of capital.**

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ **The calculation of the return of capital is based upon the Fund's accumulated earnings and profits as of the fiscal period ended April 5, 2019. The amount of the return of capital should be applied against the shareholder's adjusted basis of the stock, reducing the basis until it is zero. The amount of the return of capital, if any, that exceeds a zero basis shall be treated as a gain from the sale or exchange of property.**
