**14** Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ On July 15, 2022, the Baillie Gifford Positive Change Equities Fund (Predecessor Fund) was reorganized into the Vanguard Baillie Gifford Global Positive Impact Stock Fund (Successor Fund). Class I and Class K shares of the Predecessor Fund were converted into Investor shares of the Successor Fund in a tax-free exchange.

**15** Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ \_\_\_\_\_  
The Predecessor Fund Class I and Class K shareholders' total basis in the Successor Fund Investor shares received is the same as the total basis in the respective Predecessor Fund shares.

Per share, for each Class I share of the Predecessor Fund held, shareholders received 1 Investor share in the Successor Fund.  
Per share, for each Class K share of the Predecessor Fund held, shareholders received 1.002 Investor shares of the Successor Fund.

**16** Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ The per share basis calculations are based on the respective net asset values ("NAV") of the Predecessor Fund Class I and Class K shares as of the close of business on July 15, 2022. The NAVs are determined based on the market value of the underlying securities held by the Predecessor Fund.

The NAV of Class I and Class K of the Predecessor Fund was \$15.30 and \$15.33, respectively. Thus the exchange ratio is 1 share of Successor Fund Investor received for each share of Predecessor Fund Class I, and 1.002 shares of Successor Fund Investor received for each share of Predecessor Fund Class K.
